To Whom It May Concern:

Communications Workers of America Local 9413 would like to file an objection on the grounds of needing further clarification concerning some of our members. Senate Bill No. 135 page 8 sec. 22 states this is to “Increase the efficiency of the Executive Department of State Government” this seems to exclude our Legislative printers, due to their unique responsibilities we believe that they should be excluded from any of these Units as their work cannot be performed without the Union bug that CWA provides as part of their membership. The situation needs to be taken seriously and be investigated further in the next legislative season. Otherwise the only course of action is to have the Offset Press Operator (9.715, Unit A), Offset Machine Operator 1 (9.173, Unit A), Offset Machine Operator 2 (9.172, Unit A), and Offset Machine Operator 3 (9.731, Unit J) all to their own unit.
