MEMORANDUM

March 16, 2020

TO: All Department Directors

FROM: Laura E. Freed, Director
Department of Administration

SUBJECT: **Administrative Leave for State Employees Affected by COVID-19**

As COVID-19 cases continue to increase across Nevada, the Governor has adopted an emergency regulation, attached, that expands the ability of appointing authorities to grant paid administrative leave under certain circumstances, such as when an employee is under mandatory quarantine.

The Governor's Office encourages appointing authorities to use the following guidance to appropriately authorize supervisor-approved paid administrative leave for employees affected by COVID-19 in the following circumstances:

Employee Status	
Mandatory quarantine	Required by health authority to quarantine at home or elsewhere due to probable exposure but is not symptomatic
Mandatory isolation	Required by health authority to isolate at home, in a health care setting, or elsewhere due to probable infection
Self-imposed quarantine	Employee is not required to quarantine by health authority but elects to do so as a reasonable exercise of caution due to probable exposure

The expectation is that the above circumstances will require a maximum of 14 days of leave. In lieu of leave, appointing authorities may also establish telework agreements with employees in any of these categories who are willing, able, and well enough, and whose duties are compatible with telework.

Additionally, please note that pursuant to NAC 284.589 subsection 4, an appointing authority or the Division of Human Resource Management may also grant administrative leave with pay to an employee for any of the following purposes:

(c) Closure of the employee's office or work site caused by a natural disaster, pandemic or other similar adverse condition when the employee is scheduled and expected to be at work. An appointing authority may designate certain employees as essential and notify them that they are required to report to work.

(d) Closure, as a result of a pandemic, of a school or a center or facility that provides day care services which is attended by the employee's dependent child or the temporary cancellation, as a result of a pandemic, of a program attended by the employee's dependent child. An appointing authority may designate certain employees as essential and notify them that they are required to report to work.

The Governor has encouraged all employers to provide flexibility and special scheduling considerations for employees with school-aged children as our families work through this process.

**Re: Emergency Regulation Regarding Administrative Leave for State Employees
Affected by COVID-19**

Dear Governor Sisolak:

As the chief officer of the Department of Administration, I have determined that an immediate need exists to provide flexibility in the state's human resources regulations and policies in order to better respond to the public health danger presented by the COVID-19 pandemic.

COVID-19 cases continue to increase across Nevada, including cases that affect our own State workforce. As you may know, certain employees and/or members of their households have been exposed to this virus, and more are likely to be exposed in the coming months. However, the current Nevada Administrative Code (NAC) does not provide sufficient flexibility to respond to the need for our employees to self-isolate or quarantine without closing entire offices. Furthermore, current regulation does not clarify what type of leave would be appropriate if an employee must quarantine but is otherwise not ill.

Therefore, pursuant to NRS 233B.0613, the Department of Administration respectfully requests an emergency addition to NAC 284.589 that expands the ability of appointing authorities to grant paid administrative leave under certain circumstances, such as when an employee is under mandatory quarantine. The Department of Administration has drafted policy guidance for departments, and we stand ready to assist appointing authorities in responding to the varied circumstances that may occur in different agencies and different geographic regions of our state.

As this emergency regulation will provide immediate assistance in protecting the health of our employees and all Nevadans, your endorsement is requested. Thank you for your assistance and consideration.

Sincerely,

Laura E. Freed
Director, Department of Administration

Steve Sisolak
Governor

INFORMATIONAL STATEMENT OF ADOPTED REGULATIONS
AS REQUIRED BY ADMINISTRATIVE PROCEDURES ACT, NRS 233B.066
LCB FILE NO. R
March 14, 2020

The following statement is submitted for adopted amendments to Chapters 293 of the Nevada Administrative Code (NAC):

1. A clear and concise explanation of the need for the adopted regulation

Pursuant to the Governor's Declaration of Emergency dated March 12, 2020, the state is in an emergency status due to the COVID-19 pandemic. As such, state employees may become sick and need to self-isolate or need to quarantine with infected or exposed household members. Currently, the NAC only provides for administrative leave with pay as a result of state office closure or school/day care closure. However, in this pandemic situation, some offices may not close, but social distancing is still needed to contain the spread of the virus. Therefore, an emergency regulation is needed to permit appointing authorities the flexibility to provide administrative leave with pay or sick leave as the circumstances change, without closing entire state offices.

2. The estimated economic effect of the adopted regulation on the business which it is to regulate and on the public. These must be stated separately, and each case must include:

Business:

a. Both adverse and beneficial effects; and

Adverse: The Department does not foresee any adverse economic impact on businesses.

Beneficial: The Department does not foresee any economic benefit to businesses.

b. Both immediate and long-term effects.

Same as above.

Public:

a. Both adverse and beneficial effects; and

Adverse: The Department does not foresee any adverse economic impact on the public.

Beneficial: The Department does not foresee any economic benefit to the public.

b. Both immediate and long-term effects.

Same as above.

3. The estimated cost to the agency for enforcement of the proposed regulation.

There is no additional cost to the Department of Administration for the enforcement of the proposed regulation.

4. A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.

There are no other state agency regulations which are duplicated or overlapped by the proposed regulations.

5. If the regulation includes provisions which are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.

The federal Office of Personnel Management guidelines are no more stringent than the regulation proposed.

6. If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

The various proposed regulation changes do not provide new or increase any existing fees.
